

RESEARCH QUESTIONNAIRE

- Each institution within the consortium has dispatched the questionnaire to their institutions' students.
- The questionnaire records:
 - Students' Learning Styles
 - Distance Education Experience
 - Personality Traits and Facets of Both Educators and Students
- Responses Collected:
 - Students: 646
- Descriptive analysis has been completed.

THE ODLEP PROJECT QUESTIONNAIRE SURVEY FINDINGS CONCERNING ALL INSTRUCTORS' TEACHING PREFERENCES

The ODLEP project is funded by I.K.Y., the Erasmus+ National Agency in Greece (**Erasmus+ Programme Cooperation Partnership in Higher Education Key Action 2, Project reference No: 2022-1-EL01-KA220-HED-000089152**). The project is focusing its effort on the questionnaire survey responses analyses. The questionnaire currently is available in two platforms and four languages. In this context, the survey questionnaires are implemented on two platforms, which namely are: Google Forms and Lime survey. 646 responses from students in the partners' countries were collected. Research is still ongoing and continuously records answers. Students better conceive educational material by performing practical, experimental and object manipulation via a physical process.

STUDENTS' DOMINANT LEARNING PREFERENCE

I can better conceive the instructional material through performing the practical, experimental and object manipulation via something more of a physical process (simulated or real).
